WHAT YOU CAN DO WITH YOUR ACCOUNT

WorldCat.org lets you search the collections of thousands of our member libraries around the world. Your account lets you:

- * Build a personal profile that lets you tell other WorldCat users about your interests, personal Web pages and messaging addresses. (You can provide as much or as little information as you want, and hide your e-mail address if desired)

- * Maintain public and private lists of books, videos and other items owned by libraries, and share your public lists with friends and colleagues

New site features enabled by your account are added all the time.

Have fun!
