Last month, I noted our college library on Indian literature. The library aims to make Indian literature accessible to a wide reader, so that ever large circles of individuals can discover the musical history, philosophy of art, Indian culture, dance, drama etc. of India. As the volume of this library that I read, the History of Akbar's dynasty, our college library has succeeded in its goal of sharing valuable knowledge and providing interesting insights on India.

I referred some books from the college library and I take great pride in stating that the library helped me a lot in completing my research project. I am thankful to the library staff, for helping me, with my research project work.

Now, it is time for me to thank all those that inspired, guided and helped me till the very end of this project. I am very thankful to our respected Principal mam Dr. Manika Das.
